Distance Nearest Occupied Building: 1 Miles

Release Contained: Yes

Type of Incident: Vehicle Accident

Description of Released Contaminant: Production water from Kodiak charging Eagle well 16-21-16-1h3

Volume Spilled: 20.00 barrels

Ag Related: No

EPA Extremely Hazardous Substance: Unknown

Reported to NRC: Unknown

Cause of Incident:

Driver has head injury and cannot remember what caused the accident. The truck went off side of road and rolled over.

Risk Evaluation:

None, barricade fence was put around area to keep livestock out.

of Fatalities: 0

of Injuries: 1

Affected Medium: 03 - soil

Potential Environmental Impacts:

None according to Akana report.

Action Taken or Planned:

Spill was reported to company that we worked for. We were told that they would handle getting scuba steve to do clean up and report spill to appropriated agencies. We found out that was not the case, made phone call in the spring about some trees that had died in the area. Whiting oil had purchased Kodiak Oil and they have been working with us to get the area cleaned. We have hired Akana, who has taken samples of the area and made recommendations to BIA that have been excepted. The area does not need any soil removed. The Akana recommendation is to rake the soil and do some

reseeding and removal of dead trees.

Wastes Disposal Location: There are none.

Agencies Involved: Local Law Enforcement, BLM
